This summer the Family Resource Center is presenting a kid friendly, hands on learning garden for the local community. The Learning Garden will be a great opportunity to gain knowledge about gardening, and have some fun! Come interact with your child and learn about plants, biology, food and nutrition, teamwork, weather, and so many other things just by growing a garden together. Ages 0–6 are free for the community.

Registration is required as space is limited and in order to receive your kit. Please register with the link below or scan the QR Code.
